PROFESSIONAL SUMMARY

Entry-Level Java Full Stack Developer with hands-on experience building scalable web applications using Java, Spring Boot, Hibernate, React.js, and MySQL. Strong understanding of OOP, MVC architecture, RESTful APIs, API integration, authentication, and database design. Experienced in developing responsive web applications, CRUD operations, and secure session management. Familiar with Git, AWS Cloud, and Agile development practices. Seeking an entry-level Software Engineer role to contribute to modern product development.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Frontend: HTML5, CSS3, React.js, Bootstrap
Backend: Spring Boot.
Database: MySQL
Tools: Git, GitHub, VS Code, AWS Cloud
Concepts: OOP, RESTful APIs, MVC Architecture, Responsive Design

EXPERIENCE

Web Developer

CloudStar Digital | April 2026 - Present

- Developed and maintained responsive WordPress websites using WordPress, Elementor, HTML, CSS, JavaScript, and PHP.
- Customized themes, templates, Elementor layouts, headers, footers, archives, and single-post pages.
- Developed dynamic content using CPT, ACF, JetEngine, and Elementor.

INTERNSHIP

8Queens Software Technologies Pvt Ltd – Internship

Organic Products Management System | Website

- Developed responsive web pages using Laravel, HTML, CSS, JavaScript, and Bootstrap.
- Assisted in developing interactive and user-friendly web applications.
- Built an admin dashboard to monitor sales, customers, and product performance.
- Generated reports for sales analysis, customer feedback, and stock alerts.
- Improved UI responsiveness and usability across devices.

PROJECTS

Book Management System | Spring Boot Project

- Developed a full-stack web application with user authentication.
- Implemented secure session handling to restrict unauthorized access.
- Integrated Hibernate validation for form validation.
- Used Bootstrap for responsive UI design.
- Designed the database schema using JPA entity mapping.
- Improved application security by restricting direct URL access.

User Management CRUD Application | React.js Application

- Developed a React-based CRUD application to manage user data using functional components and hooks.
- Integrated REST API calls using Axios to perform create, read, update, and delete operations.
- Built reusable components (UserForm, UserList, UserItem) and implemented form validation.
- Used JSON Server to simulate a backend API during development.

EDUCATION

Master of Computer Applications (MCA) – CGPA: 7.2

St. Joseph's College (Autonomous), Trichy — 2023

Bachelor of Computer Applications (BCA) – CGPA: 6.5

VHNSN College (Autonomous), Virudhunagar — 2021

CERTIFICATIONS

- AWS Certified Cloud Practitioner – AWS re/Start, Tech Mahindra SMART Academy
- Java Full Stack Development – Accord Info Matrix
- Web Development Bootcamp – Udemy
